OBJECTIVE

I thrive in dynamic environments, where every line of code contributes to something bigger. My aptitude for ongoing learning ensures I stay current with the latest trends, ready to explore new horizons and adapt swiftly. Let's start building something extraordinary together.

EXPERIENCE

Application Software Developer(Executive-1) Secure Meters Ltd Jan 2023 - Present

Designing, coding, testing, and maintaining software applications according to the project requirements and specifications. This involves staying up-to-date with the latest technological advancements, industry trends, and best practices.

EDUCATION

Bachelor of Technology in Computer Science, (B.K Birla Institute of Engineering and Technology, Pilani)

Related courses: Object Oriented Programming, Databases, Data Structures Algorithms, OS. 2019-2023

9.7 CGPA

SKILLS

Technical Skills C++ , Python , HTML , CSS, Javascript , React , Bootstrap , MongoDB, ExpressJS, nextJS , ASP.NET MVC , C-Sharp, MS SQL, PostgreSQL , Java (Novice), DevExpress Framework , FTP Core , Git , APIs , Kafka

PROJECTS

Personal Portfolio . Personal Portfolio Website developed which displays my work experience, skills, education, projects, achievements, and contact information using HTML , CSS , Javascript , Bootstrap. ([Visit me](#))

Report Scheduler Application . Created a Report Scheduler Service Application using MVC .NET , C-Sharp , MS SQL Server , DevExpress Tool. Basically it is an interface which automatically generates and email reports on a defined frequencies and deliver reports to external customers, and users to update work or progress related reports. All these are set-up on a schedule which saves user's time and remove the human error.

Gmail Clone . A Gmail Clone that you can sign in with your Google Account, compose a new email and send real time emails using React , Firebase , Redux

ACHIEVEMENTS

- **Codeforces profile.** codeforces.com/komalsharma07
- **HackerRank profile.** hackerrank.com/komalsharma2201
- **GFG profile** . gfg.com/komalsharma07
- Received an offer from Tata Consultancy Services as a result of excelling in the TCS Codevita Coding Contest.

ADDITIONAL

- Completed 30 days of Google Cloud program and also received some cool google swags.
- Working as a Chegg subject matter expert in Computer Science
- Participated in Smart India Hackathon and made a Women Empowerment Website(Team Work).
